Evaporative air cooler

SILVER i
Evaporative air cooler

* WITH MULTI STAGE AIR PURIFICATION

* For selected models only

Before use of this product please read and preserve these important instructions.

natural cooling

www.symphonylimited.com
ALLERGY FILTER: This TiO₂ coated filter attracts and reacts with various allergy inducing agents — allergens, and deactivates them.

BACTERIA FILTER: Bacteria filter is made of carbon fabric treated by special antimicrobial chemicals that arrests and destroys harmful bacteria and various microorganisms that cause deadly diseases.

SMELL FILTER: Smell filter effectively adsorb odours, smoke, chemicals, fumes and various volatile organic compounds from the indoor air.

PM2.5 WASH FILTER: The air is washed and cleansed while passing through this special cellulose based filter with flowing water curtain. Here, the air is stripped of the impurities and what remains is pure and crisp air.

WATER FILTER: It collects the impurities available in water that circulates through the system for cleansing the air. This filter keeps the water absolutely clean to ensure effective washing and filtration of air.

* For selected models only
How to install and operate Symphony Silver E

1. Take the cooler out from carton. Remove all protective covers. Place the cooler near an open window or door for effective cooling. Do not use cooler in a closed room. Ensure power supply is as specified for the cooler. There should not be any spikes in supply voltage. For operating on inverter, the cooler needs to be connected to only sine-wave inverter of appropriate rating.

2. Disconnect the power cord while filling the water. As per the provision in your model, open the lock provided above the water tank at the back of the cooler to remove the tank. Pull the tank out. As per provision in the cooler, one will be able to pull the half tank out as shown in the picture. Do not try to pull-out completely.

3. Now, fill sufficient water and push the tank back into slot and close the lock.

4. Plug in to power source and switch ON.
How to install and operate Symphony Silver E

Now operate the cooler using the remote or through control panel. Follow the below mentioned instructions:

(a) POWER (ON/OFF) [â€¦]: Press the button to switch ON/OFF the cooler. Icon will glow with blue colour at ON position and RED colour at OFF position.
(b) COOL [ â€• ]: Press the button to switch ON/OFF the pump. Cool icon will glow when switched ON. The Pump will start only when sufficient water is in the tank, indicated by water icon glowing in WHITE. Low water level indicated by a buzzer for 5 seconds and water icon will start blinking in red colour. After switching on the pump, wait for 5 second and water icon will start blinking in red colour.
(c) EHC [ â€• ]: Press the COOL button twice to opt for Electronic Humidity Control (EHC) mode which regulates water flow automatically to the cooling pads by allowing the water to flow for 10 minutes and then pausing for 3 minutes consecutively.
(d) SPEED [ â€• ]: Press the button to start the blower. When started, the fan icon will glow. Press the button for high speed (H), medium speed (M), low speed(L), natural mode (N) and sleep mode (S).
(e) SWING [ â€• ]: Press button to switch on/off the swing function. Swing icon will glow when switched ON
(f) TIMER [ â€• ]: Press the button once or multiple times to set OFF timer from 1-7 hours in intervals of 1 hr. Timer icon will glow when timer is switched ON and the glowing LEDs will indicate the total OFF time set.

How to install and operate Symphony Silver

Steps 1, 2, 3, 4 are same as silver i. Please refer to page no. 2

5

Switch on the pump of the cooler by putting the cool mode but keeping the airflow control in OFF position. Wait for 5 minutes for the pad to get wet properly.

6

Set controls as desired.

7

For maximum air and cooling turn the air flow control to "High"

8

Keep the doors & windows open for optimum cooling performance. always keep the cooler in front of an open window.

Sit back and enjoy.

### Wiring Diagrams

*Silver*

*Silver i*
1. Unplug and disconnect the cooler from power source before attempting any maintenance, service or cleaning and filling water.

2. If the supply cord is damaged, it must be replaced by authorised service provider in order to avoid hazard. Do not operate the product with a damaged power cord or plug.

3. To avoid electric shock, connect only to an outlet provided with a ground fault circuit interrupting device. (ELCB = Earth leakage current breaker)

4. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

5. Children of less than 3 years should be kept away unless continuously supervised.

6. Children aged 3 years and above shall only switch on/off the appliance provided that it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children aged 3 years and above shall not plug in, regulate and clean the appliance or perform user maintenance.

7. Children must not be allowed to play with cooler.

8. This appliance is not intended to be used in locations where special conditions prevail, such as the presence of a corrosive or explosive atmosphere (vapour or gas).

9. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

This marking indicates that this product should not be disposed off with other house hold wastes through out the EU and other applicable countries. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly. If you wish to discard this product please contact your local authorities or dealer from where it was purchased and ask for correct method of disposal.

Symphony cooler works on inverter. The inverter should be of sine-wave type of appropriate rating.

Cooling performances depends on temperature of water used, relative humidity and ambient temperature.
WARRANTY REGISTRATION CARD

Date of Purchase _____/_____/_______
